- Ireland is the world's second largest software exporter

- We have 15 of the top 20 medical devices companies

- 8 of the top 10 global ICT companies are based here

# Our graduates – where are they now?

"ITB is a great college with excellent facilities and the lecturers are very nice. Great standard of education and care for students well-being and it's a great place to learn. I am currently working as a Manufacturing Technician with Intel Corporation."

Name: *Kiran Tom Kurian*
From: *Thiruvananthapuram*
Studied: *Bachelor of Engineering in Mechatronic Engineering, Institute of Technology Blanchardstown (ITB)*
**Working:** *Intel Corporation, Kildare*

"It is a very friendly atmosphere at Maynooth University. The professors are easily approachable if you have difficulties in understanding a concept. The facilities at university are really good and makes it an amazing learning environment overall."

Name: *Dhanalakshmi Singh*
From: *Bangalore*
Studied: *MA in Finance, Maynooth University*
Now working: *Ion Trading, Dublin*

"I love travelling and exploring new places. I have a BE in computer science and came to Dublin to pursue an MSc in Data Analytics from NCI. As a student, I actively volunteered and participated in all the college events and organized most of the events with NCI's International Friendship society. NCI and Ireland have helped me in achieving the dreams I always believed in. Now I am working full-time with Citigroup as a Technology Analyst."

Name: *Shalki Nagpal*
Hometown: *Vadodara*
Studied: *MSc in Data Analytics, National College of Ireland*
Now working: *Citi, Dublin*

"The skills I developed have clearly given me a distinct advantage over my peers at work. Most of the courses are structured around continuous assessments which require an intensive approach to the task. All the teaching, projects and case studies were targeted at current industrial scenarios. It is not only about books, UCD has got a variety events lined up throughout the year with the UCD Students Union functioning at the heart of everything."

Name: *Ashwin Sharan Sridhar*
From: *Chennai*
Studied: *MEngSc Food Engineering, University College Dublin*
Now working: *Kerry Group, Dublin*

"I proudly look back at my year at UCD Michael Smurfit Graduate Business School where I made great friends, learnt about international and local cultures and also developed an exemplary insight into my chosen industry. The support from the Faculty and Career Development team in finding a suitable career option was incredible."

Name: *Shubhangi Sharma*
From: *New Delhi*
Studied: *MSc Supply Chain Management, UCD Michael Smurfit Graduate Business School.*
Now working: *Glanbia, Dublin*

"Ireland is ranked highly when it comes to information technology and computing and there are many multinational companies that use Ireland as a base for their HQs. This means there is huge scope and opportunity in the industry here for experience and graduate positions. At DCU, there are 3 organizations working together to make sure you make the most of your time at DCU both in the lecture halls, and outside them. The Student Union's doors are always open to students in need of anything from support, advice, clubs, societies, to events. The opportunities are endless!"

Name: *Chinmay Kadam*
Hometown: *Kolhapur*
Studied: *MSc. in Computing at Dublin City University*
Now working: *SAP, Dublin*

"Coming from a non-computing background, many facets of the world of technologies were new to me and I found the course to be of an exceptional quality and easy to follow. Being an international student and travelling to Europe for the first time added to my anxiety. The program is designed and administered so seamlessly that I not only felt 'the warm welcome' but, my faculty and peers became a support system throughout my stay as well as a network for life. So much so, that I have decided to stay on in Ireland post the Masters to gain some international work experience. I personally believe this qualification will be a mark in the long run whereby everything will be judged on the basis of whether it came before or after the NCI masters."

Name: *Aryan Bansel*
Hometown: *New Delhi*
Studied: *Masters in Cloud Computing, National College of Ireland*
Now working: *Amazon, Dublin*

"I decided to pursue my undergraduate and postgraduate studies from AIT as it provides an opportunity to enhance knowledge and expertise in the area of current software development and research, which helps me in advancing my career goals."

Name: *Akash Rajguru*
Hometown: *Surat*
Studied: *Bachelor of Engineering (Honours) in Software Engineering, Athlone Institute of Technology*
Now working: *COMAND Technology Gateway based at Software Research Institute, AIT, Athlone*

"After submitting my thesis, I got a job offer from General Motors within a week and I moved to Limerick. Within one year I went from a student to professional. While my choice to stay in Ireland after studies was partly motivated by my desire to put my skills in action, it was to a great effect due to exceptional experience I had over the course of my Masters. Friendly people everywhere, state-of-art amenities, all the top companies around you with exciting career opportunities; there really wasn't any second thought."

Name: *Udgam Mehetre*
Hometown: *Mumbai*
Studied: *MSc in Computing (Data Analytics), Dublin City University*
Working: *General Motors, Limerick*

"You have to be quite active from the first day of the year for the job application process in order to get sorted and land into a job. So I would advise visiting the team at the career development centre quite early. My year at Smurfit was one of the most memorable times and I would definitely recommend to all the prospective students. Work hard and don't forget to enjoy your time in Ireland!"

Name: *Ankita Biswas*
From: *New Delhi*
Studied: *MSc in Management, UCD Michael Smurfit Business School*
Now working: *PwC, Dublin*

"Studying here gave me the opportunity to interact with students from diverse backgrounds and cultures, offering me a different perspective about the world. Apart from this, being able to learn from real-life business case scenarios, such as during my thesis with IBM, and from visiting professionals from international companies, have further enhanced my learning experience."

Name: *Archit Kumar*
From: *New Delhi*
Studied: *Masters in Business Analytics, UCD Michael Smurfit Graduate Business School*
Now working: *Ernst & Young, Dublin*

"Before actually stepping on to the humongous corporate world, my course exposed me to the best blend of different cultures and international management dynamics within the classroom arena. The international study trip to Hong Kong as part of the course was enriching to gain wider international exposure in tandem with the Irish corporate world. I would highly recommend Ireland since most of the companies have their European headquarters located here. It has excellent quality of education, it is an English speaking nation with friendly people all around."

Name: *Janvi Shah*
From: *Mumbai*
Studied: *Masters in International Management, National University of Ireland, Galway*
Now working: *Citibank, Dublin*

"I completed my MSc from Dublin Institute of Technology and availed the Post Study Work Visa, which allowed me to stay and look for work. I was successful and am currently working in NCR Corporation as a DevOps Engineer. I am extremely happy with my college life and work life here in Dublin so far."

Name: *Akhil Dani*
From: *Nagpur*
Studied: *MSc. in Applied Computing, Dublin Institute of Technology*
Now working: *NCR Corporation, Dublin*

"Quality education brings with itself matchless opportunities - that is exactly what my experience at Trinity has taught me."

Name: *Aishwarya Jha*
From: *New Delhi*
Studied: *LL.B. Honours, Trinity College Dublin*
Now working: *Offered trainee Solicitor at McCann FitzGerald, Dublin*

"Successfully completing my degree in Accounting and Finance from DBS helped me to be selected for the graduate programme at EY Ireland. It laid a strong foundation which helped me to complete my professional accountancy qualification."

Name: *Seetal Somasundaran*
From: *Thrissur*
Studied: *BA (Hons.) Accounting and Finance at Dublin Business School*
Now working: *National Asset Management Agency (NAMA), Dublin*

"It was my second year at Griffith College when I received a job offer from Ernst & Young. The contract guaranteed me the position at their firm if I graduated with at least 2:1 mark (average mark of 60% +). To say the least – I was determined to do my best and a year later I successfully completed my Bachelor studies in Accounting & Finance with first class honours degree and was the first in my class. I have learned and achieved a lot during my time in Ireland."

Name: *Jatinder Singh*
Hometown: *Chandigarh*
Studied: *B.A. (Hons) in Accounting & Finance, Griffith College*
**Now working** *Ernst & Young, Dublin*

"I'm currently working with Ireland's leading Information Security experts, and I've also been funded to pursue a PhD in Informatics in ITB."

Name: Neha Thethi
From: Ajmer
Studied: Masters Degree in Information Security & Digital Forensics, Institute of Technology Blanchardstown (ITB)
Now working: BH Consulting, Dublin

"Studying at Waterford IT gave me the necessary skills to quickly adapt to the real world industry. The smaller class rooms with diverse people helped me to work in ease at work place."

Name: Deepak Sharma
Hometown: Bangalore
Studied: BEng (Hons) in Electronic Engineering, Waterford Institute of Technology
Now working: Schivo Group, Waterford

"I always knew Ireland was famous for top notch institutes and was very much intrigued by the prospect of pursuing my masters in Data Analytics from Ireland. NCI was exactly what I wanted - highly educated faculties and updated course structure helped me to enhance my skill-set. The course structure is well balanced between social and academic life. I was notified of many opportunities relevant to my skill-set."

Name: Prakash Dumbre
Hometown: Pune
Studied: MSc in Data Analytics, National College of Ireland
Now working: Pokerstars, Dublin

"I moved to Ireland to pursue a 1 year Masters Degree in Information Security & Digital Forensics in ITB and now employed at Cyber Security Analyst with Ernst & Young , Dublin. My work involves anticipating cyber-attacks and performing a range of large-scale attacks & penetration tests. I also help clients to build and operate their Security Operation Centres, enabling them to identify early signs of cyber-attacks and security breaches."

Name: Dhvanik Miglani
Home Town: New Delhi
Studied: MSc in Computing in Information Security & Digital Forensics, Institute of Technology Blanchardstown (ITB)
Now working: Ernst & Young, Dublin

"With its renowned history of education and being the land of the saints and scholars, this country has the warmest of folks around who are very helpful, very polite, very friendly and extremely accommodating to visitors and students from across the world."

Name: *Souvik Roy*
From: *Kolkata*
Studied: *ME Electronic Engineering, Maynooth University*
Now working: *Dell, Cork*

"The best things about studying and living in Dublin are the friendliness of the people and the many interesting places nearby. At CCT the small classes allowed me to ask a lot of questions until I fully understood each topic. While studying at CCT, I really enjoyed the educational environment and the freedom to learn. I gained a lot of confidence and skills from my studies at CCT, to start my own business."

Name: *Somasekhar Rapolu*
From: *New Delhi*
Studied: *Bachelor of Business, CCT*
Now working: *Swan Image Express, Dublin*

"Ireland has been a huge learning experience for me. From joining NCI to bagging a job at Pfizer, it has been a wonderful journey so far. Dublin has a very cosmopolitan crowd and people are extremely friendly and welcoming. As for NCI, it is one of the best colleges there with staff that is always ready to go over and above their responsibilities to help the international students feel at home. The decision to join NCI was definitely a huge stepping stone for my career."

Name: *Rachna Thalluri*
From: *Hyderabad*
Studied: *Masters in Finance, National College of Ireland*
Now working: *Pfizer, Dublin*

"My time in Waterford IT has been amazing. It's a great campus with a very friendly atmosphere , yet it has everything students would need including a great Library, Computer labs and a Students Union which runs great events. As an electronics engineering student I was delighted with the practical nature of the course which was delivered in the best technical way during the lectures and labs. All were very industry oriented."

Name: *Deval Dixit*
From: *Kanpur*
Studied: *Masters in Engineering in Electronics Engineering, Waterford Institute of Technology*
Now working: *Valeo Vision Systems, Galway*

"I decided to pursue a Masters course in mechanical engineering, in order to gain an edge in a very competitive environment. The MEngSc in Mechanical Engineering at UCC particularly attracted my attention because of the repute the university holds in the international market and the course in itself is very highly ranked in the world. The course being of 1 year was extremely challenging and busy right from the start. Time management was one of the key skills that I learnt here. It was designed to give an overview of the different engineering sectors where a mechanical engineer can be employed. I did well in my course and achieved Distinction. As soon as I finished my studies, I was offered the position of a Graduate Manufacturing Engineer at a company called 'Kostal' in Ireland."

Name: *Saurabh Anand*
Hometown: *Ranchi*
Program: *MEngSc Mechanical Engineering, University College Cork*
Now working: *Kostal Ireland, Limerick*

"I chose Ireland because I was fascinated by Irish culture, music and dance. Also, Ireland is a popular location for Software companies. Most of the world's top Software companies have their offices located in Ireland"

Name: *Santhosh Balasa Ramnath*
From: *Bangalore*
Studied: *MEng Computer & Communications Systems, University of Limerick*
Now working: *Sanmina, Cork*

"My study helped me to understand particular aspects of engineering and research- outlined the problems faced by industry, which inspires engineers to build smarter systems, with the level of technology available in Ireland to solve real-life problems."

Name: *Samarth Viswanath*
From: *Bangalore:*
Studied: *M.Eng.Sc, Microsystems (Wireless Sensing Systems), University College Cork*
Now working: *Boston Scientific, Tipperary*

"I am proud to be a graduate of the MEng in Electronic Engineering programme from Waterford Institute of Technology. I feel extremely satisfied that I chose to study at WIT. It has a very dedicated team of lecturers with excellent industrial experience. The coursework is designed as per the latest industrial standards which helped me to enhance my skills and knowledge."

Name: Sana Zaim
Studied: M.Eng In Electronic Engineering, Waterford Institute of Technology
From: Lucknow
Now working: Analog Devices, Limerick

"Maynooth University is the place where I began my journey on this green isle. I made new friends, I got immersed in a new culture, I completed my degree, and I ended up working in the most suitable role possible for me. Thank you, Ireland, for welcoming me, and providing me with this opportunity!"

Name: Jubin Pareek
From: Bikaner
Studied: MSc IT Management, Maynooth University
Now working: Dornan Engineering in Dublin

"I found my undergraduate and postgraduate studies at AIT to be industry driven, providing me with the necessary skills to pursue a rewarding career in the software industry."

Name: Tushar Sharma
From: New Delhi
Studied: Master of Science in Software Engineering, Athlone Institute of Technology
Now working: Hewlett Packard, Dublin

"I can't thank DBS enough for making my masters such a pleasant experience. The course had the perfect blend of all the business elements to make a good project manager. I owe my first job in Dublin to one of the career fairs on campus."

Name: Varsha Ann Jacob
From: Bangalore
Studied: Masters in Project Management, Dublin Business School
Now working: IBM, Dublin

" It was a privilege to enrol into MSc Neuropharmacology course with excellent teaching staff, world-class research environment and application based learning which prepared me to opt for PhD. CURAM is a leading centre in the medical device industry whose approach is to develop smart medical devices and implants which benefit patients with chronic ailments over across different diseases. Galway is a perfect place to explore Irish as well as international cultures."

Name: Vaibhav Patil
From: Mumbai
Studied: MSc in Neuropharmacology. PhD -Third year (pursuing)
*Now working: Centre for Research in Medical Devices (CURAM) Galway*

"I chose this course because it was up to date and carried a mix of the latest, in-demand technologies. The course content is well organised and easy to understand, therefore, I found it very interesting, and it also improved my communication skills, self-confidence and employability."

Name: Shravan Kumar
From: Gopalganj
Studied: Master of Science (MSc) Information Systems and Computing, Dublin Business School
Now working: Motech Devices, Dublin

"I chose University of Limerick because it provided an excellent scholarship and a world class education system to enhance me on a personal as well as professional level. UL's career office help me a lot in finding an excellent opportunity in Ireland, and also with my visa related questions at the time of finding an employment. So in the end I just love UL."

Name: Amber Pandey
From: Indore
Studied: MSc Information and Network Security, University of Limerick
Now working: Johnson & Johnson, Limerick

" The fantastic reputation that Shannon College has worldwide together with unique placement programme made me who I am today also further studies with Dublin Institute of Technology opened limitless opportunities for me worldwide."

Name: *Himanshu Sud*
From: *New Delhi*
Studied: *Hotel Management at Shannon College and Msc Information Technology at Dublin Institute of Technology*
Now working: *Tifco Hotel Group, Dublin*

"The Trinity MBA experience has transformed my career. Coming from India, I was committed to gaining international experience and moving industry from the technology sector to other sector especially financial services. The strong network of Trinity's professors, alumni and the MBA career development team helped me to pursue my commitment towards my career, gaining employment in Ireland in the Financial Services sector. "

Name: *Amit Chaturvedi*
From: *Kota*
Studied: *MBA at Trinity Business School, Trinity College Dublin*
Now working: *AIB Corporate Banking, Dublin*
