

Last year, NUI Galway awarded students from India a diverse range of scholarships. Given the high calibre of applications received we are now extending our scholarship offerings and we look forward to welcoming students from all over India to our friendly and historic Galway campus. We are delighted to announce the launch of our India Specific Scholarships.

**Sir Peter Freyer Special Merit Scholarship (Value: €13,750) in the area of Science, Bioinnovation, and ICT**  
see <http://www.nuigalway.ie/internationalstudents/feesfinance/internationalscholarships/sirpeterfreyerspecialmeritscholarship/>

**Two** Freyer Scholarships, comprising a full fee waiver (value: €13,750), are available. These scholarships are aimed at academic programmes in science, bioinnovation, and ICT. Applications for the scholarship are welcomed from Indian students\* seeking to enter one of the selected taught Master's programmes at NUI Galway.

**Max Arthur Macauliffe Special Merit Scholarship (Valued: €13,750)**  
see <http://www.nuigalway.ie/internationalstudents/feesfinance/internationalscholarships/maxarthurmacauliffespecialmeritscholarship/>

**Three** Macauliffe Scholarships, comprising a full fee waiver (value: €13,750), are available. These scholarships are aimed at academic programmes in all areas of the NUI Galway curriculum.

**Postgraduate Merit Scholarships (Value: €2,750)**  
**Twenty five** Postgraduate Merit Scholarships, comprising a partial fee waiver (value: €2,750), are available. These scholarships are aimed at postgraduate programmes in all areas of the NUI Galway curriculum.

**Undergraduate Merit Scholarships (Value: €2,750)**  
**Ten** Undergraduate Merit Scholarships, comprising a partial fee waiver (value: €2,750), are available. These scholarships are aimed at undergraduate programmes in all areas of the NUI Galway curriculum.

**Government of Ireland Scholarship (Value: €21,250):**  
This scholarship is co-funded by the Irish Government and comprises a full tuition waiver plus a stipend of €7,500 to cover living expenses for one year. NUI Galway have participated in the schedule in previous years and hope to do so again for the September 2016 intake.

### History

NUI Galway is one of Ireland's oldest universities, and enjoys a 160-year history of comprehensive and globally aware education.

We are the country's premier university in the fields of Biomedical Science/Innovation, Software Engineering and Informatics, Human Rights, Arts and Theatre, and Applied Social Sciences.

### Rankings

NUI Galway rank 3rd in Ireland and the only Irish University to increase its position in the two main international rankings, the Times Higher Education (THE) World University Rankings and also QS World University Rankings for the last three years in a row.

Pictured above are Ameya C. Jagtap and Sravanthi Bandla from NUI Galway with the Prime Minister of Ireland Enda Kenny, at the Government of Ireland Scholarship awards ceremony. The Prime Minister is also a graduate of NUI Galway.

'NUI Galway is one of the leading universities in the world with top quality teaching and research focus. Data Analytics has an applied expertise in data preparation statistics and machine learning to investigate complex problems in many various domains such as Interpreting, managing large amount of data set despite of hardware software constraints, also merging various data sources. Galway city is a nice place to live, with the authenticity to Irish life and culture surrounded by some of Ireland's most beautiful countryside. It offers you a mix of balanced academic and night life. I would recommend any prospective student especially from India to choose NUI Galway as their study destination.'

**Jyotirmoy** is currently studying a MSc in Data Analytics and was a recipient of the Max Arthur Macauliffe Special Merit Scholarship and has also been chosen as an Education in Ireland Student Ambassador

**Swarna Raman** 'I consider it as a great opportunity to have graduated from NUI Galway with a Master's degree in Regenerative Medicine. The Government of Ireland (GOI) Scholarship awarded to Indian students at the Postgraduate level was a real boost to me. The reason I chose Regenerative Medicine was mainly due to the therapeutic potential of this field and also the vast opportunities provided to students aiming at a career in industry and research by the Regenerative Medicine Institute (REMEDI) at NUI Galway. The structure and methodology of teaching at REMEDI, ensures that students can carry out any scientific work of complex nature, with great confidence. I feel elated to have benefited from this course by further securing an admission to pursue a structured PhD specialising in the field of Orthobiology in REMEDI, via the Hardiman Scholarship awarded by NUI Galway. My work aims at finding strategies for modulating the inflammatory environment in an osteoarthritic joint using the anti-inflammatory cytokine, viral interleukin-10, as a potential gene therapeutic target. It is very exciting to do PhD in a scientifically motivating and student-friendly' research facility. I feel proud to be a part of REMEDI and NUI Galway.'

Hi, my name is **Kanika Wadhwa**, pursuing MS in Biotechnology at NUI Galway. I have been fortunate to be part of this university and environment that is known for its excellence for all right reasons and purposes. The studies here are excellent and engaging. All the professors are really helpful and I am having the time of my life. Not only studies but also the extra-curricular activities are helping me in my overall personality building. I am blessed to have achieved a Sir Peter Freyer Special Merit Scholarship with the correct guidance of the University International officers and my counsellors back home. I am very thankful for this opportunity.
