Welcome To

# Ireland

As a student in Ireland you can connect with career opportunities with leading global companies located here. Meet some of our recent Indian graduates, who have just kick started their careers!

1

"I found my undergraduate and postgraduate studies at AIT to be industry driven, providing me with the necessary skills to pursue a rewarding career in the software industry"

**Name:** Tushar Sharma

**From:** New Delhi

**Studied:** Master of Science in Software Engineering at Athlone Institute of Technology

**Now working:** Hewlett Packard, Dublin

"I can't thank DBS enough for making my masters such a pleasant experience. The course had the perfect blend of all the business elements to make a good project manager. I owe my first job in Dublin to one of the career fairs on campus."

**Name:** Varsha Ann Jacob

**From:** Bangalore

**Studied:** Masters in Project Management at Dublin Business School

**Now working:** Real Nation, Dublin

"The course helped me to get some insight and hands-on experience on current technologies being used in the industries, which made my profile stronger"

**Name:** Pankaj Vasant Bhamare

**From:** Maharashtra

**Studied:** Masters in Cloud Computing at National College of Ireland

**Now working:** Guideware Software, Dublin

2

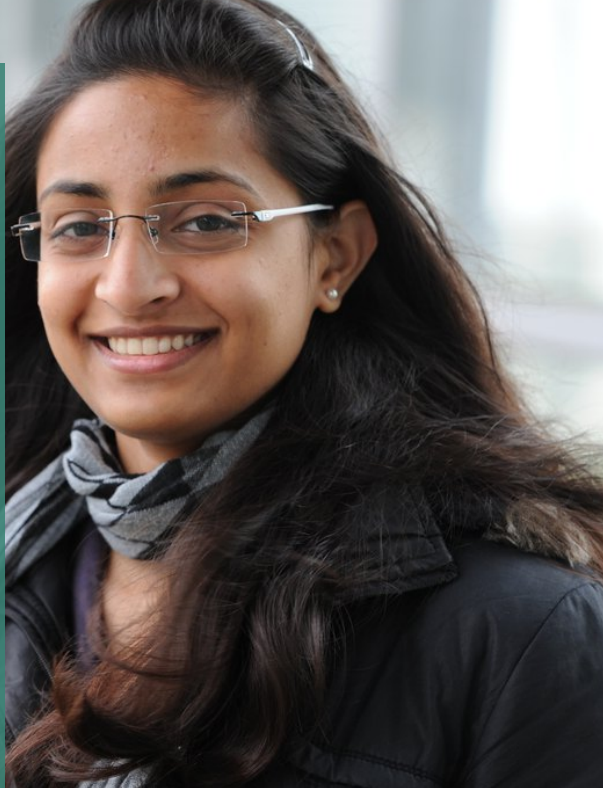

"I'm currently working with Ireland's leading Information Security experts, and I've also been funded to pursue a PhD in Informatics in ITB"

**Name:** Neha Thethi

**From:** Rajasthan

**Studied:** Masters Degree in Information Security & Digital Forensics at the Institute of Technology Blanchardstown (ITB)

**Now working:** BH Consulting, Dublin

"Pursuing the MSc in Management amidst a diverse student community helped me excel in a global arena and learn cutting edge business practices and tools"

**Name:** Nabi Hawia

**From:** New Delhi

**Studied:** Masters in Management at the UCD Michael Smurfit Business School

**Now working:** Oracle, Dublin

"Within a month of completing my internship, I was offered a job with IBM (Dublin) as a Software Engineer, working with the Smartcloud team"

**Name:** Abul Almas Bari

**From:** New Delhi

**Studied:** Masters in Computer Science at Maynooth University

**Now working:** IBM, Dublin

"I decided on Ireland as it's an English speaking country and DIT is one of the well renowned institutes in Ireland, with lots of career opportunities"

**Name:** Kapil Karadiya

**From:** Madhya Pradesh

**Studied:** Masters in Supply Chain Management at Dublin Institute of Technology

**Now Working:** Procter and Gamble, Newbridge

"The course offered the perfect blend of practical and theoretical knowledge making it a perfect course for those who want to pursue a career in corporate sector or aspire to have their own venture someday"

**Name:** Richa Arya

**From:** New Delhi

**Studied:** Masters in Management and Marketing at University College Cork

**Now Working:** Tweak.com, Kerry

"I chose Ireland because I was fascinated by Irish culture, music and dance. Also, Ireland is a popular location for Software companies. Most of the world's top Software companies have their offices located in Ireland"

**Name:** Santhosh Balasa Ramnath

**From:** Karnataka

**Studied:** MEng Computer & Communications Systems, University of Limerick

**Now working:** IBM, Dublin

"I took the decision to pursue my Masters in Computer Science at Trinity College because of its reputation and my keen interest in the course. Meeting the Trinity Career Advisory Service was one of the stepping stones in my job search; I managed to get a lot of calls for interviews"

**Name:** Swati Sehgal

**From:** New Delhi

**Studied:** Masters in Computer Science at Trinity College Dublin

**Now working:** Intel, Leixlip

"At HP Enterprise Services I'm working with Open Government Data Analytics, which was also the subject of my thesis"
